

I.I.
Propositions 'Concerning the Map of LONDON and
WESTMINSTER &c: which is in hand by Wentfel Hollar

This Map is to contain 10 Foot in bredth, and 8 Foot upward
wherein shall be expressed, not onely the Streets, Lanes, Alleys &c:
proportionably measured; but also the Buildings (especially of
the principall Houses, Churches, Courts, Halls, &c) as much resem-
bling the likenesse of them, as the Convenience of the roome will
permitt. Example whereof is in Considerable part to be seen;

The Charge thereof being found by Experience to be wery great
and too heavy to be borne by the Author himselve alone. He ma-
kes this proposall following.

If any Gentleman or other Worthy Person be inclined to
encourage arts, or things of that nature, would please (out of
his free beneuolence and Generous mind, not standing upon Pro-
fit, but for the Honour of this famous Cittie, and his Cowne) to
contribute to this laborious Peerce, the Summe of 3 lb, in a
maner as shall follow: he will thereby be oblidge, in way of
gratuity, to put euery such persons Coat of Armes and Name
as a Benefactour, in a Convenient place of the Map, desig-
ned for that purpose. And the Worke being finished, to deli-
uer to each of them, 2 such Maps Printed, full and Compleat.

The maner of the payment is desired to be thus; 20 Sh^l now
to help on the Worke, and to support & maintaine the Charges
which doe occur, as well in his Family or otherwise, and at the
sight of their Coats of Armes in their places; 20 Sh^l moore, and
at the receit of their Compleate Maps, the last mony is to be payd.

26 Jul 1660
I acknowledge to have receined of S^r Edward Walker
the Summe of 20 Shille upon the conditions aforesaid.

Wenceslaus Hollar.
